An Exceptional Property, Nestled in Nature

An 850-hectare estate, rooms spread out over several kilometres, houses sleeping between two and ten guests each.

Heated outdoor pool, water tennis court, bikes and boats available, and private pathways to explore... the stuff of dream, from morning until late at night. One feeling dominates all others: that of staying in a country house.

To stay in one of the Domaine des Étangs [22 four-star rooms and suites](#) is to discover an understated luxury revealed in both a purity of form and a quality of materials. Wood, copper, glass and local stone are everywhere.

At our restaurant, it's a journey of the senses, a delight for the eyes and taste buds. Our chef blends classic and daring flavours to create a highly original menu.

Here at the heart of the best of nature, the professional world and a unique setting come together to create a unique meeting place. We've designed everything so that seminar participants will have wonderful memories of their time here.

You'll sample creative, healthy and often organic cuisine that privileges authentic tastes, quality ingredients, and seasonal flows.

Our chef, Marc Aupiais, prepares for your visit to Domaine des Etangs by purchasing fresh, seasonal produce from a network of local farmers first thing in the morning, making the most of the estate's resources (the mushrooms found in our forest, the herbs from the herb garden, pike perch and bass, and game) and then dreaming up dishes throughout the day before preparing a single five-course dinner that everyone shares*.

bacon and pea cream
